

DESIGN IS TRANSPARENT.

WE EVALUATE EVERY INGREDIENT. BECAUSE EVERY BIT MATTERS.

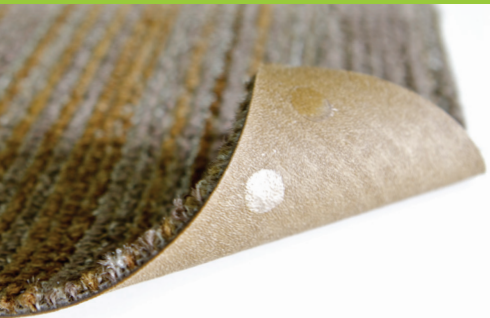

As a leader in sustainability, Shaw Contract Group provides a building chemistry that is safe and sustainable for all who use our products. We choose to be positive. To be mindful of people and the planet. To make products that look good, act good, and make the world a better place. To be design leaders and ground breakers. Our latest corporate sustainability report shares how we live up to our promises, and outlines our new environmental performance goals to become an endless source of good energy.

SAFE, SUSTAINABLE, AND TRANSPARENT

We are dedicated to providing beautiful products that are constructed to endure. Our EcoWorx products are *Cradle to Cradle Certified™* Silver, meaning we create flooring that is based on continual improvement. Most of our products fully contribute to LEED V4 Material Ingredients Credit and provide a pathway for Living Building Challenge projects. To support our transparency efforts, we maintain HPDs for all commercial carpet products and LBC Compliant Declare labels for EcoWorx tile products. To access relevant documentation, please visit shawcontractgroup.com.

More than 300 Shaw Contract Group products are *Cradle to Cradle Certified™*. Products certified at the silver level include: EcoWorx® Tile, EcoWorx® Broadloom, EcoWorx® Performance Broadloom, EcoWorx® Resilient, and Commercial Broadloom with Nylon 6 Fiber (Ultraloc® and Classicbac®). All woven Unitary products are certified at the Bronze level.

ECOWORX BACKING + ECOSOLUTION Q FIBER

The industry's first PVC-free, bitumen-free carpet tile system – built to sustain and *Cradle to Cradle Certified™* Silver.

LOKDOTS

When EcoWorx + EcoSolution Q is installed with LokDots, it remains a *Cradle to Cradle Certified™* Silver installation system. Non-toxic and odorless, LokDots virtually eliminate VOCs and offer 97% material reduction compared to wet adhesive.

RECLAMATION AND RECYCLING

RECLAIM TO FAME: SHAW COLLECTS AND RECYCLES MORE THAN 100 MILLION POUNDS ANNUALLY.

Carpet Recycling

Recycling efforts are managed through our portfolio of comprehensive internal recycling options.

EcoWorx Recovery

When the time comes to replace your carpet, we want it back. EcoWorx is backed with a guarantee for free reclamation and recycling.

To learn more about the availability of recycling in your area, visit shawcontractgroup.com or contact your local account representative.

Reclaim-to-Energy (Re2E)

Fueled by reclaimed carpet, Re2E creates enough fossil fuel savings to power 7,500 homes annually.

SOCIAL RESPONSIBILITY

DESIGN IS MAKING A DIFFERENCE.

From charitable donations to DIFFA and other non-profit organizations around the globe, to funding for Public Architecture's 1% program and MASS Design, Shaw Contract Group is socially responsible by design.

LEED (LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN)

Shaw Contract Group products contribute to LEED 2008 and v4 projects around the globe. Visit shawcontractgroup.com for more details.

CORPORATE SUSTAINABILITY

Our annual corporate sustainability report shares how we live up to our promises, and outlines our new environmental performance goals to become an endless source of good energy.
